Header details

The screenshot shows a window titled "Header data of IDOC" with a sub-header "Header-details ORDERS" and a document ID "0000000000192001". The main content is a table of header data. The "Status" field is highlighted in red, indicating an error. The "EDI-Sender" and "Sold-to party" fields are highlighted in green. The bottom of the window features a toolbar with a green checkmark, a pencil icon, the text "Text", and a printer icon.

The screenshot shows the SAP IDOC configuration interface. At the top, there is a toolbar with icons for 'Foreground', 'Background', 'FG from error', 'IDOC', and other functions. Below the toolbar, a header bar displays 'O R D E R S', 'EDI - Sender 1', and the timestamp '11.02.2001 19:59:23'. The main area is titled 'Items on IDOC' and contains a tree view with 'Positions' selected. A 'Configuration data' dialog box is open, showing a table with the following data:

Position	Configuration data
10	0000000000209004
20	

Below the table, there is a section for 'Characteristic Value' with the entry 'MKL_HXB' and the value '1.200'. At the bottom of the dialog, there are icons for a checkmark and a document. The bottom of the main window also features a toolbar with a checkmark, a document icon, and two arrows.

Embedding of the Bensberg-component in the SAP R/3

- Add-on to R/3
 - Programmed in "ABAP" (Advanced Business and Application Programming)
 - own name range, assigned by SAP (/BEE/)
 - thus, no intervention in R/3, but access on R/3-data
- runs under R/3-Releases 4.0 - 5.0 with or without Automotive
- automatic generation by SAP-Standard transport
- available language versions: D, E, F, ES

Thank for your time and interest.
